

FATHIMATH RIZWANA

 fathimathrizwana761@gmail.com  8139055063  Kasaragod, Kerala, India  Rizwana  rizwana25

PROFILE SUMMARY

B.Tech Graduate with expertise in modern web development and AI integration. Proficient in building scalable, responsive applications using contemporary frameworks and leveraging AI-driven solutions to enhance functionality.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology 10/2022 – 05/2026 | Kerala, India
LBS College of Engineering, Kasaragod

WORK EXPERIENCE

Artificial Intelligence Virtual Intern 08/2025 – 09/2025
AICTE, Shell India & Edunet Foundation
• Completed 4-week virtual internship focused on AI applications for sustainability and green technology
• Developed practical skills in implementing AI solutions for environmental challenges

Web Development Intern 06/2025 – 07/2025
SkillCraft Technology
• Developed and optimized responsive web interfaces using HTML, CSS, and JavaScript.
• Collaborated with a team of developers to improve UI/UX and functionality, ensuring cross-browser compatibility.

Artificial Intelligence Intern 11/2025 – 01/2026
Infosys Springboard
• Developed TraceFinder to identify source scanners from digital documents using pattern analysis
• Applied image preprocessing and ML techniques for reliable source identification

SKILLS SUMMARY

- **Languages:** Python, Java, C
- **Web Technologies:** HTML, CSS, Javascript, Shopify, React
- **Framework:** Flask, Numpy, Pandas, Node.js, Flutter
- **Platforms:** GitHub, Jupyter Notebook, Google Colab, VS code, Render, Relay
- **Databases:** MySQL
- **Soft Skills:** Problem-Solving, Time Management, Team Collaboration, Adaptability, Communication

ACHIEVEMENTS

District Level Winner – YIP 7.0 (MoE Innovation Cell, Govt. of India) 2025
Recognized for innovative project Carbon Footprint Tracker at LBS College of Engineering, Kasaragod.

Second Runner-Up – CIPHERTHON 2.0 Hackathon 03/2026
• Secured 2nd runner-up position in a 6-hour inter-college hackathon
• Demonstrated strong problem-solving and rapid prototyping under time constraints

PROJECTS

Carbon Footprint Tracker 01/2025 – 03/2025
• Built a full-stack web platform to track and reduce users' carbon footprint through real-time analytics on energy, transportation, and waste
• Delivers real-time analytics, personalized insights, and visual progress reports to support data-driven, eco-conscious decisions..

Naura Jewels | E-Commerce Store 04/2026 – 05/2026
• Developed and customized a Shopify-based e-commerce store for a jewellery brand.
• Implemented theme customization, product and collection management, and payment gateway integration.
• Optimized the storefront for responsive performance across desktop and mobile devices.

TraceFinder-Scanner Source Identification System 11/2025 – 01/2026
• Developed a system to identify source scanners from digital documents using pattern-based analysis
• Applied image preprocessing and feature extraction techniques to capture scanner-specific characteristics
• Implemented ML models to ensure accurate and consistent source identification

Safespace-Anonymous Reporting System 09/2025 – 03/2026
• Built an anonymous reporting system enabling students to submit complaints securely
• Implemented NLP-based classification to categorize complaints and detect severity
• Developed REST APIs with anonymous chat and basic heatmap-based visualization for report insights

CERTIFICATES

- The Joy of Computing Using Python – NPTEL (IIT Madras)
- Career Essentials in Generative AI – Microsoft & LinkedIn
- Python & AI Bootcamp – DevTown (Startup India Recognized)
- IBM SkillsBuild – Agentic AI: From Learner to Builder | CSRBOX & IBM
